DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Harry Smith on July 26, 2005.

Replace claims 1 and 8 with new claims as follows:

Claim 1:

1 . A method for establishing a data transfer connection from a first device utilizing SIP protocol to a second device over a telecommunication network with at least two sub-networks from which at least one is unable to utilize SIP protocol, the method further comprising

- establishing a tunnel utilizing TCP protocol from a client application residing in a first sub-network, whereto the first device has established a connection utilizing SIP protocol; and

- wherein said tunnel established over sub-networks not supporting SIP protocol is terminated to a server application in a second sub-network supporting SIP protocol, which server application has a permanent IP address or DNS name, whereto is connected said second device, which utilizes SIP protocol.

Art Unit: 2664

Claim 8:

8. A network arrangement for establishing a data transfer connection from a first device utilizing SIP application to a second device over a telecommunication network with at least two sub-networks from which at least one is unable to utilize SIP protocol, the network arrangement comprising;

- a tunnel established utilizing TCP protocol from a client application residing in a first sub-network serving the first device; and
- wherein said tunnel over sub-networks not supporting SIP protocol is terminated to a server application in a second SIP supporting sub-network, which server application has a permanent IP address or DNS hostname, where to is connected said second terminal, which utilizes SIP protocol.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claims 1, and 8 are allowed. The prior art discloses a method for establishing a data transfer connection from a first device utilizing SIP or TCP protocol to a second device over a telecommunication network using the same protocol.

The prior art however fails to disclose or suggest the use of subnetworks in which TCP protocol is established by a client application residing in a first sub-network, where to the first device has established a connection utilizing SIP protocol and the other sub-networks that is unable to utilize SIP protocol is terminated to a server application.

Art Unit: 2664

Claims 23, and 25 are allowed. The prior art discloses various computer readable programs for causing a computer to send and receive messages utilizing SIP, UDP or TCP protocols to and from the SIP, UDP or TCP user devices.

The prior art however fails to disclose or suggest a computer readable code means for causing an Split Proxy With Media (SPWM) agent to send and receive messages utilizing SIP, UDP or TCP protocols to and from a SIP application residing in the user device and a computer readable code means for causing the SPWM agent to create a TCP connection from the SPWM agent to a SPWM connection point.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
